

ADG Eco Lighting Products Induction Case Study 4152012

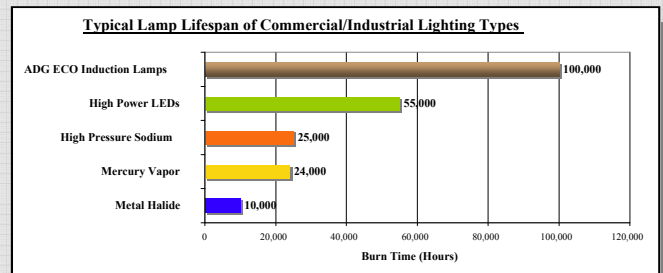

My Gym Hawaii ∞ Case Study 4152012

Hawaiian—My Gym part of a national Franchise awarded the project to ADG for its New Build Located in Honolulu ADG is a real American Lighting Manufacturer.”

My Gym with references from Architect James Severson decided to use ADG eco Induction fixtures for its new build. Rather than fluorescents the ADG 100 Watt induction lights were a premium per Kwh .32 cut in half from the start.

Multiples of new induction lights with ADG Eco High Performance Induction Lights were put into service. Protective bottoms for the flying balls and other fun objects will protect the fixtures.

ADG created specialty units to meet the demand of a franchisee - this is My Gym and an ADG Eco Solution.
