## ← The Interior Designer **MICHAEL BERMAN**

Michael Berman creates an elegant, warm space in the dining room, reminiscent of the cafe he and his wife, Judith, own in New York City. Berman's approach is to create an atmosphere of comfort and style, using a mix of textures and colors to create a warm, inviting space. He uses a mix of materials, including wood, metal, and fabric, to create a rich, layered look. The result is a space that is both functional and beautiful.
